Spare parts for MARTIN horns 2097 GM and 2298 GM

Guidance on fitting:

After parts have been fitted it is essential for you to test the entire MARTIN horn thoroughly. You should, above all, make certain that the electric blower runs smoothly and does not deviate any more than 5% from the performance data stamped on the identification plate (power consumption, rpm of shaft, duration of signal, response range).

Order number			Price €
31-1122	armature ASM 87, 12 volts	31-1123 armature ASM 87, 24 volts	81.00
31-1162	field coil ASM 87, 12 volts	31-1163 field coil ASM 87, 24 volts	60.00 / set
31-1182	field coil ASM 94, 12 volts	31-1183 field coil ASM 94, 24 volts	60.00 / set
70-5105	plain disk for 2097		8.50
70-5106	plain disk for 2298		8.50
2604.63	Screw-on cover for valve socket, anodized aluminium, 27 mm Ø		19.80
2609.05	Bracket for shaft, U- shaped with 4 screws		16.80
2610.13	Protective cover for shaft, anodized aluminium (when ordering please include serial number of the horn)		28.00
2613.05	Microswitch		14.00
70-5130.10	Microswitch holder, zinc plated		9.50
2614.15	Drive shaft with adjustment ring, securing ring		12.50
2614.21	Drum controller, plastic, 18 mm Ø		10.50
2614.91	Helical gear, steel, 65 teeth, 26.8 mm Ø		17.00
2615.08	Cylindrical gear, steel 28 teeth, 22,1 mm Ø for 2298 SM/2097G		14.00
2615.11	Cylindrical gear Z 2, steel 30 teeth, 24 mm Ø for 2097 GM + 2298 GM		14.00
2615.21	Ditto, 32 teeth, 25.5 mm Ø for 2297 GM		14.00
2615.81	Cylindrical gear Z 3, HGW, 60 teeth, 46.5 mm Ø for 2097 GM + 2298 GM		15.00
2615.76	Ditto, 58 teeth, 45 mm Ø for 2297 GM		15.00
